SICA

SELART INTERNATIONAL
COMMITTEE OF ACCREDITATION

INSTITUTIONAL ACCREDITATION · PROGRAM ACCREDITATION · INDEPENDENT DECISIONS · PUBLIC ACCOUNTABILITY

Presentation for the board · SIERG · Geneva, Switzerland

Presented by Dr. Cyril Bauvais

The need

SIERG has many schools around the world.

Our teachers come from many different countries.

> It is time to create an integrated quality control.

The risk

We could go further: an accreditation.

But a body fully dependent on the group that produces the courses creates a conflict of interest.

> An accreditation must be trusted.

The decision

Our President, with the Swiss team and certification advisers, decided to create it fully independent.

> SICA is based in Geneva, Switzerland.

Separate roles

Guidelines:
one body creates the quality guidelines.

Audit and label:
another body audits and awards the label.

Those who write the guidelines are not those who audit.

What comes next

This is the beginning.

A committee with experienced members.

A clear roadmap, to be ready to accredit as soon as possible.

> **Thank you.**
